The 19th Bioshares Biotech Summit Returns to Hobart, 7-8 August 2025

These are turbulent times, not just for Australia's biotech sector, but globally. Financial markets are 'adjusting' as the new US administration seeks to make radical changes to its international trade and begins significant government restructuring, including at the FDA, CMS and general staff. 'Uncertainty' appears to be the description that best describes the current business landscape for Australian biotech.

This year's meeting will be a timely event for biotech executives and investment managers to meet to discuss how best to navigate the volatile conditions, and establish better clarity for investors for upcoming opportunities. The world will continue to need better medicines and diagnostics, and the pharmaceutical industry will continue to rely on the rapid innovation from the world's biotech sector.

This year we welcome new sponsors to the Summit, insurer Liberty Specialty Markets and our investment partner sponsors E&P, and Bell Potter Securities. Thank-you also for the continued support for this event from Avatar Brokers, FB Rice, Bio101, ATM financing group Acuity Capital, Iqvia Biotech, and the ASX.

We hope you can make it to Hobart for this event! If you have any enquiries, please contact us at Bioshares1@gmail.com.
