The 2024 Bioshares Biotech Summit is Coming to Fremantle!

Following on from a very successful event in Hobart during 2023 which had a record 200 attendees, the move to Fremantle will provide the opportunity for biotech companies to access new retail and institutional investors in WA, and for biotechs and service providers to build closer links with a very active biotech sector in the state which enjoys strong support from the WA State Government.

Our Event Partner for the Summit is the WA Government and our Destination Sponsor is Business Events Perth. Thank-you to the companies that have continued to support this event, specifically IP firm FB Rice, law firm Piper Alderman, the insurance broker for the sector Avatar Brokers, Australia's leading At-The-Market service provider Acuity Capital, and the ASX. We are also delighted to welcome two new sponsors to this year's event, Bio101, a financial services firm dedicated to Australia's biotech sector, WA-based investment bank, Euroz Hartleys and global clinical research services and data analytics firm IQVIA.

It will be a timely meeting for investors to meet and hear from the leading, emerging biotechs in the sector, and for biotech CEOs to discuss the challenges and opportunities that are ahead. New to the event this year will be a CFO dinner. And the golf day preceding the Summit is back on.

We hope you can join us! If you have any enquiries, please contact us at summit@bioshares.com.au.
